Tier Descriptions for MAP Assessments on the following page

- **Exceeds Target** – Students scoring in this range are predicted to earn a score of 24 on the ACT based on research conducted by NWEA in 2013. This is the score identified by the study as indicating college readiness at the State University level. NWEA to ACT target analysis is expected to be updated this year by NWEA, and will be reviewed once available.
- **Meets Target** – Approximately 90% of students scoring in this range are predicted to meet standards on the upcoming MCA-III assessment.
- **Below Target** – Approximately 50% of students scoring in this range are predicted to meet standards on the upcoming MCA-III assessment.
- **Well Below Target** – Approximately 10% of students scoring in this range are predicted to meet standards on the upcoming MCA-III assessment.

Math Target Scores Grades K – 8

If a child reaches or exceeds the “proficient” target score, he or she has an approximate 90% probability of achieving a proficient score on the MCA-III. If a student attains the “partially proficient” target score, he or she has an approximate 50% probability of achieving a proficient score on the MCA-III.
